Focus: Data querying, joins
- HTML / CSS / Bootstrap
███████████ (Intermediate)
Focus: Layout design, responsive structure

THEODOROS KAROPOULOS

STATISTICAL ANALYST | FISCAL REPORTING,
DATA AUTOMATION & INSIGHTS

PROFILE

Experienced data and reporting professional with a strong background in complex dataset management and high-precision data validation. Skilled in Excel, Power Query and data transformation, with growing capability in Python for automation and advanced analysis.

PROFESSIONAL EXPERIENCE

- Hellenic Statistical Authority (ELSTAT)** JAN 2014 – FEB 2025
Piraeus, GR
Government Finance Statistics Officer
 - Compiled and assessed financial and non-financial accounts for 400+ public sector entities, ensuring accuracy and compliance under strict EU reporting frameworks.
 - Processed datasets from ministries, state-owned enterprises, and public law entities, checking for missing values, inconsistencies, and classification errors before integration.
 - Ensured transparent reporting of deficit and debt figures by reconciling datasets, resolving inconsistencies, and applying structured validation workflows.
 - Identified mismatches between reported expenditures and treasury data and corrected them through reconciliation procedures.
 - Produced quarterly and annual Government Finance Statistics (GFS), preparing all required tables, annexes, and documentation for Eurostat review.
 - Built Excel/Power Query pipelines to update recurring GFS tables, reducing manual preparation time and minimizing human error.
 - Applied ESA 2010 classification rules to public entities, improving comparability and analytical consistency across fiscal datasets.
 - Reclassified entities based on control, financing, and function criteria, resolving long-standing inconsistencies.
 - Collaborated with national agencies (GAO, BoG, ministries) to align methodologies, correct discrepancies, and maintain high data quality standards.
 - Coordinated data corrections with GAO when discrepancies appeared between budget execution and accounting records.
 - Participated in Eurostat dialogue visits and technical Task Forces, contributing to international data harmonisation and adopting best practices.
 - Delivered all fiscal reports on time for 10+ consecutive years with zero compliance issues.

SKILLS

- Advanced Excel & Power Query
- Python for Automation & Data Modeling
- Data Validation & Visualization
- Statistical Data Analysis
- Fiscal Governance & Compliance Standards
- Analytical Precision & Attention to Detail
- Cross-Functional Collaboration

EDUCATION

1997 - 1998
UNIVERSITY OF STIRLING | UK

- MSc in Investment Analysis

1992 - 1997
UNIVERSITY OF PIRAEUS | GR

- BSc in Statistics & Insurance Science

LANGUAGES

- Greek (Native)
- English (Proficient | C1)
- French (Basic | A2)

Ministry of Rural Development and Food
Athens, GR
Budget Officer

JUN 2005 - DEC 2013

- Developed and maintained Excel-based tools and models to support regular budget planning and expenditure monitoring.
 - Created structured spreadsheets with automated formulas, pivot tables, and validation rules to reduce manual errors and standardize reporting across departments.
 - Built monthly expenditure-tracking models that highlighted deviations between planned and actual spending.
- Delivered budgetary reports to the General Accounting Office and ELSTAT, contributing to fiscal transparency.
 - Consolidated financial data from multiple units into unified reports, improving clarity and reducing reconciliation time.
 - Ensured timely submission of monthly and quarterly budget execution summaries with consistent formatting and documentation.

Agricultural Bank of Greece (ATEBANK)
Athens, GR
Corporate Finance Analyst

NOV 2002 - MAY 2005

- Assisted experienced officers in conducting financial assessments for corporate clients and rural cooperatives.
 - Prepared preliminary financial reviews using balance sheets, income statements, and cash-flow data.
- Supported credit decisions through risk analysis and performance metrics, contributing to assessments presented to the Board of Directors.
 - Evaluated repayment capacity using financial ratios and historical performance indicators.
- Participated in on-site evaluations to gather data for financing decisions.
 - Conducted field visits to cooperatives and SMEs to verify operational capacity and financial claims.

Eurobank Cards S.A.
Athens, GR
Credit Policy Analyst

APR 2001 - AUG 2002

- Supported loan and credit-card assessments using Excel-based scorecards and the bank's internal IT systems, ensuring consistent and data-driven credit decisions.
 - Applied standardized scoring criteria to evaluate repayment capacity and creditworthiness.

CERTIFICATES & TRAINING

- Government Finance Statistics Training:
 - IMF Advanced Seminar on fiscal reporting methodologies (Washington D.C., 2019)
 - Eurostat training on EU deficit and debt statistics (Riga, 2016).
- Python Programming: 100 Days of Code - The Complete Bootcamp - Udemy (2025)
 - Hands-on projects in automation, and data analysis.
